PREFACE

The Annual Report of the Trade of Canada for the fiscal year ended March 31, 1924, is practically identical in format with the report for 1923.

Two tables have been added to the report, viz., No. 28A, which gives, for several selected years, a summary of the trade of Canada analysed on the basis of the *degree of manufacture* of commodities, and No. 30, which shows the quantities and values of goods remaining in Customs warehouses at the close of each of the last three fiscal years.

Five other tables have been altered or expanded with the aim of making them more useful to the public.

In Tables Nos. 1, 2 and 3, the columns that formerly showed " Excess of Imports for Consumption or Exports of Canadian Produce " now show the " Excess of Imports for Consumption or Total Exports,"—i.e., the amount of Exports of Foreign Produce is now included. (See "Special Note" on page 6.)

In Tables Nos. 28 and 29 (analyses according to Origin and Purpose) the amount of Customs duty collected on Imports under each heading is now shown, as well as the value of the goods.

A number of new items appear in the main detailed tables of Imports and Exports. These additions were made in conformity with changes in the tariff, or in compliance with representations by industrial or commercial interests.

Egypt, owing to constitutional changes, is listed among " Foreign countries " for 1924. Figures referring to trade with " Egypt and Sudan ", as a British territory in former years, will still be found in the " British Empire " grouping. Iceland having become a distinct country, statistics of trade with it are now shown separately from the figures for Greenland, which remains a Danish possession.

This report has been compiled in the External Trade Branch, Dominion Bureau of Statistics, under the direction of Mr. W. A. Warne, B.A., chief, and Mr. Ernest Green, assistant chief.

PRÉFACE

Le rapport annuel sur le commerce du Canada, pour l'exercice budgétaire terminé le 31 mars 1924, est présenté sous une forme à peu près identique au rapport de 1923.

On a ajouté au présent ouvrage deux nouveaux tableaux, l'un portant le No 28A, qui constitue une analyse des échanges du Canada, considérés au point de vue du degré de fabrication des marchandises, et l'autre portant le numéro 30, lequel indique le volume et la valeur des marchandises restant dans les entrepôts de la douane, à la fin de chacun des trois derniers exercices.

Cinq autres tableaux ont été l'objet, soit de modifications, soit d'additions, qui accroîtront leur utilité. Dans les tableaux 1, 2 et 3, les colonnes qui présentaient autrefois l'excédent soit des importations, soit des exportations de produits canadiens, indiquent aujourd'hui ou bien l'excédent des importations ou bien l'excédent des exportations totales, c'est-à-dire que les réexportations y figurent actuellement. (Voir la note spéciale de la page 7.)

Dans les tableaux numéros 28 et 29 (analyses selon l'origine et la destination) on trouvera désormais le montant des droits de douane perçus sur les importations, de même que la valeur des marchandises.

Les tableaux de détail consacrés tant aux importations qu'aux exportations se sont augmentés de quelques item, ces additions résultant soit de changements du tarif, soit de représentations faites par les industriels ou les commerçants.

Eu égard aux changements constitutionnels survenus, l'Egypte figure parmi les pays étrangers en 1924; néanmoins, les chiffres du commerce avec l'Egypte et le Soudan pendant les années précédentes n'ont pas été exclus du groupement, sous l'entête « Empire britannique ».

L'Islande étant devenu un pays indépendant, les statistiques concernant ce pays sont maintenant séparées de celles du Groenland, qui reste possession danoise.

Ce rapport a été compilé sous la direction de M. W. A. Warne, B.A., chef de la section du Commerce extérieur du Bureau Fédéral de la Statistique, et de M. Ernest Green, chef-adjoint.

EXPLANATORY NOTES

In this report, throughout, the term "Imports" means "Imports Entered for Consumption".

The term "Entered for Consumption" is the technical term in use at the custom-house, and does not imply that the goods have been actually consumed in Canada, but that they have passed into the possession of the importer and that duty has been paid on that portion liable for duty.

The value given for goods imported is the fair market value thereof when sold for home consumption in the principal markets of the country whence and at the time when the same were exported directly to Canada.

The term "Canadian Produce" includes all imported articles which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined in Canada from imported raw sugar, flour ground from imported wheat, and articles constructed or manufactured from imported materials.

The term "Foreign Produce" applies to the exports of foreign goods which had been previously imported.

The value of "Canadian Produce" is its value at the time of exportation at the ports of Canada whence shipped.

The value of "Foreign Produce" is the actual cost of such goods.

The tables of imports and exports at the several ports of entry indicate that merchandise of the value stated was *entered inwards* or *passed outwards* at the ports mentioned, but do not imply that the imports were all for consumption at such ports or that the exports originated there.

The initials N.E.S. mean "not elsewhere specified".

The initials N.O.P. mean "not otherwise provided for".

The expression "ton" means two thousand pounds, and "cwt." one hundred pounds.

Throughout this report the expression "British Africa—West—Other" means all of British West Africa except Gambia, Gold Coast, Nigeria and Sierra Leone: "British East Indies—Other" means all the British East Indies except British India, Ceylon, and the Straits Settlements: "British West Indies—Other" means all the British West India Islands except Barbados, Jamaica and Trinidad and Tobago: "British Oceania—Other" means all of British Oceania except the Australian Commonwealth, Fiji and New Zealand: while "Italian Africa—Other" means all Italian possessions in Africa except Tripoli.

Prior to 1920 "Silver bullion in bars, blocks, ingots, drops, sheets and plates, unmanufactured" was included in "Coin and Bullion". Beginning with the fiscal year 1920 it is regarded as merchandise. In order to maintain the value of these tables for comparative purposes, the figures have been revised in accordance with this new arrangement. Consequently, the tables in this report will not agree in their totals of "Merchandise" and "Coin and Bullion" with similar tables published in Annual Trade Reports prior to 1920

SPECIAL NOTE

The figures in the second columns on pages 11, 13 and 15 represent the actual balance of visible trade only from 1921 on. In earlier years the statistics of "Foreign Exports" included certain goods that had been brought into Canada and re-exported without having been out of Customs bond. Beginning 1921, only goods previously "Entered for consumption" are recorded as "Exports of Foreign produce".

NOTES EXPLICATIVES

Partout où le mot "importations" se trouve dans ce volume, il signifie "marchandises importées pour la consommation".

Les mots "importées pour la consommation" sont l'expression technique adoptée dans le service des douanes, et ne signifient pas que ces marchandises sont nécessairement employées au Canada, mais qu'elles ont été livrées à l'importateur qui a payé les droits lorsqu'il s'agit de marchandises imposables.

La valeur spécifiée pour les marchandises importées est le prix réel et exact qu'elles commandent sur les principaux marchés du pays d'où elles viennent et au moment de leur exportation directe de ce pays au Canada.

Les mots "produits canadiens" couvrent tous les articles importés qui ont été modifiés dans leur forme ou augmentés de valeur par l'industrie canadienne, comme le sucre raffiné au Canada provenant du sucre brut importé, la farine extraite de blé importé, et les articles construits ou fabriqués avec des matériaux importés.

Les mots "produits étrangers" désignent tous les articles importés de pays étrangers, puis réexportés.

La valeur des "produits canadiens" est la valeur réelle à la date de leur exportation, aux ports du Canada d'où ils sont expédiés.

La valeur des "produits étrangers" est le coût effectif de ces marchandises.

Les tableaux des importations et des exportations aux différents ports d'entrée qui figurent dans ce rapport, indiquent que *ces marchandises sont passées par ces ports*, soit à l'entrée, soit à la sortie, mais ne signifient pas qu'elles aient été consommées dans ces ports, ni qu'elles y aient eu leur origine.

Les initiales "n.s.a." signifient "non spécifiés ailleurs".

Les initiales "n.a.e." signifient "non autrement énumérés".

L'expression "tonne" signifie deux mille livres, et "qtl" cent livres.

Partout où elle est employée dans ce rapport l'expression "Afrique britannique de l'ouest—autre" embrasse la totalité de l'Afrique britannique de l'ouest, excepté la Gambie, la Côte-d'Or, la Nigérie et Sierra-Leone. "Indes orientales britanniques—autres" embrasse toutes les Indes orientales britanniques, à l'exception de l'Inde anglaise, Ceylan et les Etablissements des Détroits. "Antilles anglaises—autres" comprend toutes les îles des Antilles anglaises excepté les Barbades, la Jamaïque, Trinidad et Tobago. Enfin, "Océanie britannique—autre" embrasse toutes les possessions britanniques de l'Océanie, sauf l'Australie, les îles Fidji et la Nouvelle-Zélande. Enfin, "Afrique italienne—autre" comporte toutes les possessions italiennes en Afrique, moins Tripoli.

Antérieurement à 1920, "l'argent en barres, saumons, lingots, lames, feuilles ou plaques, non ouvré", se confondait avec "monnaies et lingots", mais il est considéré comme une marchandise depuis le commencement de l'exercice 1920. Dans le but de conserver la possibilité de comparaison des tableaux, les chiffres ont dû être revisés, conformément au nouvel état de choses. C'est ce qui explique que les totaux des "Marchandises" et ceux des "Monnaies et lingots" que l'on trouvera dans les tableaux du présent rapport ne concordent pas exactement avec les chiffres donnés dans les rapports antérieurs à 1920.

NOTE SPÉCIALE

A partir de l'année 1921, les chiffres de la deuxième colonne, pp. 11, 13 et 15, représentent la balance effective du commerce visible. Antérieurement, les statistiques des "Exportations étrangères" embrassaient certaines marchandises entrées au Canada puis réexportées sans être sorties des entrepôts de la douane, mais depuis 1921, les "exportations de produits étrangers" se limitent aux marchandises d'abord "entrées pour la consommation"
